"一体化"数字配电盘

It's time to move the electrical switchboard into the digital age

是时候数字化配电盘了

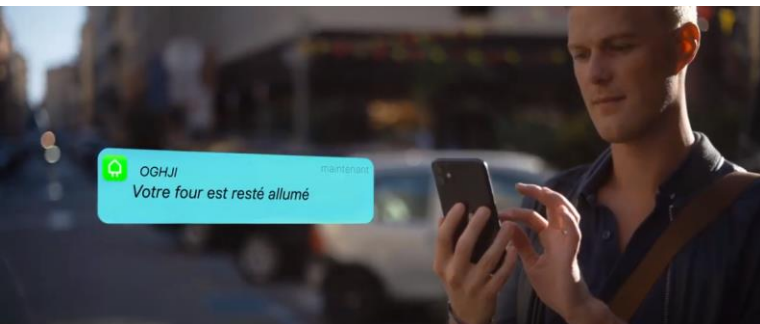

- Energy demand will increase 30% by 2040 (IEA)
**能源需求到2040年将会增加30%
(国际能源署)**
- Energy efficiency potential of the building electrical installations is limited by a 50 years old mechanical technology
**建筑中电气装置的能源效率潜力受到
已存在半世纪之旧式机械技术限制**
